

gk_graph_ComputeBFSOrdering

```
graph LR; A[gk_graph_ComputeBFSOrdering] --> B[gk_free]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The first box, on the left, has a light gray fill and a black border, containing the text 'gk_graph_ComputeBFSOrdering'. A dark blue arrow points from the right side of this box to the left side of the second box. The second box, on the right, has a white fill and a black border, containing the text 'gk_free'.
